Project Summary

1. Xbox

Project	:	Xbox
Company	:	L & T Infotech
Client	:	Nordea Bank
Project Type	:	Enterprise Application
Technology	:	Java, Spring 4, Hibernate 5, Spring MVC, Spring Data JPA, JUnit, Mockito, DB2

Project Description

- Xbox is an interface application developed to achieve communication between various application developed on different platforms.

Roles & Responsibilities

- Analyzing requirements and developing it within estimated timeliness.
- Working on change request, bug fixing and unit testing.
- Working with the QA team to provide overview on the developed system and helping them develop test cases for all the functionalities.
- Coordinating with CRM team for production release.
- Mentoring newly added team members about project.

2. IOA

Project	:	IOA[IPS(Individual Pension System) Online Application]
Company	:	L & T Infotech
Client	:	Nordea Bank
Project Type	:	Web Application
Technology	:	Java, Spring 4, HTML 5, JSP, Java Script, JQuery, JUnit.

Project Description

- IOA is an UI portal developed for Bank to help user to create accounts, pension management and funds managements.

Roles & Responsibilities

- Analyzed requirements and implemented it within estimated timeliness.
- Worked on change request, bug fixing and unit testing.
- Worked with the QA team to provide overview on the developed system and helping them develop test cases for all the functionalities.

3. MOVIT(Product)

Project	:	MPS[Mobile Payment System for QNB(Qatar National Bank,),AlexBank and Imbank in Egypt]
Company	:	TimesOfMoney pvt ltd.
Project Type	:	Mobile Application and Web Application
Technology	:	Spring 3 MVC, Hibernate 4, Webservices, JSP, MySQL, AJAX, JavaScript

Project Description

- Movit is a mobile payment system that allows users to perform payment transactions through their mobile devices.
- This system includes a wireless environment with interactions among engaging parties where at least one engaging party is a mobile user.
- With mobile payment, customers can purchase variety of items from dealers who support the payment from mobile devices, while they are on the move.

Roles & Responsibilities

- Analyzed requirements and developed various modules accordingly.
- Developed REST web services for mobile application.
- Involved in database designing, bug fixing and unit testing.

4. MyDishaTest(Product)

Project	:	MyDishaTest, MET(My EmployabilityTest), KyaHub Test
Company	:	Edusharp Finishing School Pvt Ltd.
Project Type	:	Web Application
Technology	:	Struts 2.0, Hibernate 4, MySQL, JSP, AJAX, JavaScript, JQuery,HTML and CSS

Project Description

- "MyDishaTest" is an School Level Skill assessment platform for 5th -12th std students to test their skills.
- We developed online registration logic and Module for starting test (fetching questions) depending upon the user qualification like psychometric assessment.
